

How To Submit Lyrics

- 1) Log on to the site
- 2) Click on “New Post” under “Posts”

- 3) Know the controls:

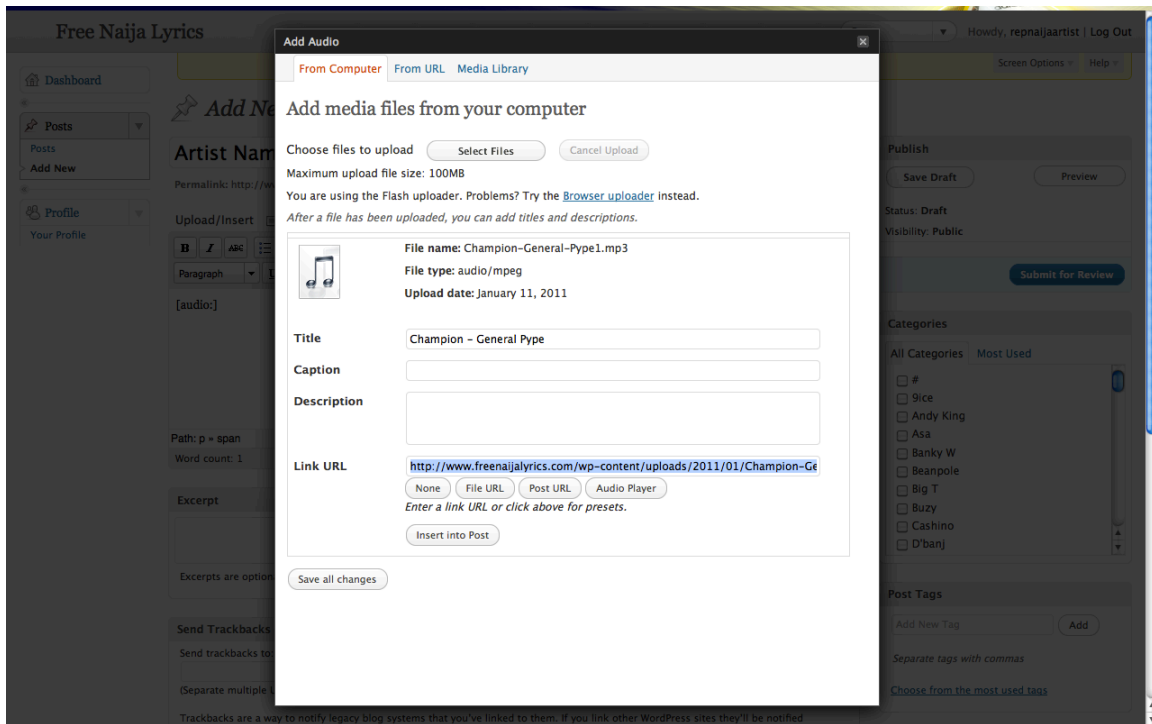

In the screenshot above, there are four icons as seen in the table below:

Icon	Purpose
	Used to upload an image. Please limit your image

	size to a maximum width of 200 pixels and a maximum height of 200 pixels.
	Used to add a video. Not needed and shouldn't be used.
	Used to upload an audio file. Upload mp3 files only. You'll need the link url after you upload your mp3 file.
	Used to add media.

4) Here's a sample screen of what you get when you "Add an audio" or click the appropriate icon for an audio. Notice the link url? You'll need this.

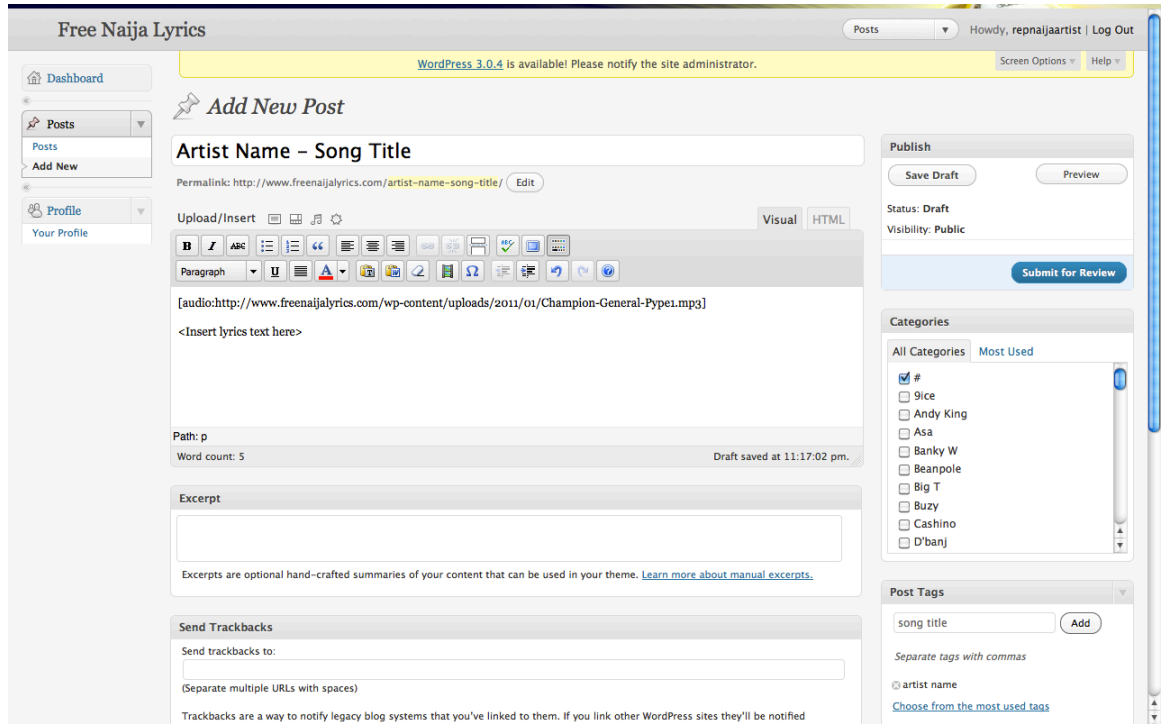

5) Here's a sample lyrics post. You need to add the appropriate tag, select a category (default is # if an applicable one can't be found. It would be added once you submit the lyrics for review), embed your audio into the post using:

[audio: [LINK URL](#)]

where LINK URL is the link url seen in the screen shot in *step 4* above. By using the tag above, your

uploaded audio file would become playable once the lyrics post is published.

6) Click the “Submit for Review” button once done.
